

Face of Summer (feat. Sarah deCourcy)

Armin van Buuren

Wandering alone
Caught at dusty dead end
Where are you now
Is there a sign you're sending
I want you back
I said I want you back I was broken
Such a fool then
Till you looked my way
Thought I was dreamin'
Now I'm believin'
You're my night & my day
You're the face of summer
I won't wait till summers gone
Don't let this fade away
I've headed down this road too long to discover
Standing in the light you and I side by side
You're the face of summer
You're the face of summer
Memories stole away
I won't wait till summers gone
Don't let this fade away
I've headed down this road too long to discover
Standing in the light you and I side by side
You're the face of summer
I want you to stay
Let's walk into the sun You're the face of summer
