

Sunsets

Habibi

And I look up to the sunset
On the trees the trees they're falling
Little leaves the leaves they're changing
And the change the change is for???

And I look up to the sunset
On the trees, the trees they're falling
Little leaves the leaves they're changing
And the change, the change is for???

Saw him on the corner and I watched him walk away
Caught up with him later and I thought of things to say
Asked him what his name was and he answered with a smile
His name was Joe
(His name was Joe)
His name was Joe
(His name was Joe)

And I look up to the sunset
On the trees, the trees they're falling
Little leaves, the leaves are changing
And the change, the change is for???

And I look up to the sunset
On the trees, the trees they're falling
Little leaves, the leaves are changing
And the change, the change is for???

Saw him on the corner and I watch him walk away
Caught up to him later and I thought of things to say
Asked him what his name was and he answered with a smile
His name was Joe
(His name was Joe)
His name was Joe
(His name was Joe)

And I look up to the sunsets
And I look up to the sunsets
And I look up to the sunsets
And I look up to the sunsets
