

The Mountain

Dierks Bentley

[Verse 1]

Well I bet my soul on a six string gamble
And I climb like hell through the brush and the bramble
Even though I had my doubts, told myself don't look down
And I turned that hill into a pile of gravel[Chorus]
It was only a mountain, nothing but a big ol' rock
Only a mountain, it ain't hard if you don't stop
It just took a little step, a [?] then a lift
Then a [?] more, who's counting
Yeah, that's only a mountain

[Verse 2]

Well you better know the bottom if you wanna be a climber
Cause there's always another one a little bit higher
Just when I think I'm finally done I'm staring at another one
So I reach down deep and I lace 'em up tighter[Chorus]
It was only a mountain, nothing but a big ol' rock
Only a mountain, it ain't hard if you don't stop
It just took a little step, a [?] then a lift
Then a [?] more, who's counting
Yeah, that's only a mountain[Bridge]

Now I'm standing at the top with the sweat behind me
Yeah you gotta look up if you ever wanna find me

[Chorus]

It was only a mountain, nothing but a big ol' rock
Only a mountain, it ain't hard if you don't stop
It just took a little step, a ? then a lift
Then a [?] more, who's counting
Yeah, that's only a mountain
