Spy (feat. Wyclef Jean)

Shakira

Slow motion
Blinds are see through
Let your mind go

Imagine that I kiss youTurn off the lights and open up your eyes now You can take a glimpse into my soul for tonightDo you got the heat off, girl?

Yes, I do

Can you turn up the temperature?

You bet I could

Colombian with a swagger

Yes. I am

Whatever it takes to make this thing work we gonna Whatever it takes to make this thing work we gonna

There's a spy by my window, I know it's you

You like to keep an eye on me

I know you like to keep an eye on me

There's a spy by my window, I know it's you

Won't you like to keep an eye on me?

I know you like to keep an eye on me

Keep an eye on me

But if you want it got to let it be know you dream about me

And it turns me on to think about it

This is the finest game

It ain't even got a name

I just wanna see how far it takes us tonight

Do you got the music on, girl?

Yes, I do

Can you get a little closer?

You bet I could

Colombian with a swagger

Yes, I am

Whatever it takes to make this thing work we gonna Whatever it takes to make this thing work we gonna

Whatever it takes to make this thing work we gonnaThere's a spy by my window, I know it's

you

You like to keep an eye on me

I know you like to keep an eye on me

There's a spy by my window, I know it's you

Won't you like to keep an eye on me?

I know you like to keep an eye on me

Keep an eye on me

But if you want it got to let it beWhen the dog's away, that's when the cats play You'll be my girl, I'll be the spy

Like the James Bond flick, girl, I'm ready to rideWhen the cat's away, that's when the mouse play

You'll be my girl, I'll be the spy

Like the James Bond flick, girl, I'm ready to die, die, dieThere's a spy by my window, I know it's you

You like to keep an eye on me
I know you like to keep an eye on me
There's a spy by my window, I know it's you
Won't you like to keep an eye on me?
I know you like to keep an eye on me

Keep an eye on me

But if you want it got to let it beLipstick's on, stockings up Skirt's short, heels are high

Take your time, buckle upClose your eyes and enjoy the ride

Close your eyes and enjoy the ride

Close your eyes

Close your eyes and enjoy the ride
