Well I got friends from Colorado  
I got friends from Tennessee  
So I got something in a bottle  
And I got something from a seed  
Since you said you didn't love me  
Since hung me out to dry  
I've been drunk up in the Smokies  
On a Rocky Mountain high  
Made the plans, booked the day, spent the money too  
Nothing sweet 'bout a paid-for honeymoon  
Million dollar view to see but she won't  
Since "I do" turned right into "I don't"  
So I'm chillin' in a cabin at the tip-top  
Lookin' at a holler full of hemlocks  
No cars, no bars or my phone  
And just when you think I'm all alone  
I got friends from Colorado  
I got friends from Tennessee  
So I got something in a bottle  
And I got something from a seed  
Since you said you didn't love me  
Since hung me out to dry  
I've been drunk up in the Smokies  
On a Rocky Mountain high  
These Appalachian folks  
Probably think I'm losing it in these trees  
Yeah, but they don't know  
What kind of company I keep, yeah  
Well I got friends from Colorado  
I got friends from Tennessee  
So I got something in a bottle  
And I got something from a seed  
Since you said you didn't love me  
Since hung me out to dry  
I've been drunk up in the Smokies  
On a Rocky Mountain high  
I've been drunk up in the Smokies  
On a Rocky Mountain high  
Jack's still on the hill 'cause Jill ran away  
But Jill's got nothin' on Jack and Jane
