

# Brainiac

## Chevelle

Time holds us for a minute,  
It dries the wrists like penicillin  
Each of these men holds a pentagram  
So ease up on the slurs  
They're pushing off the charts We know him as one cell  
Should've combined to save brains.  
How 'bout I teach him to crawl.  
Lift up the head so proud.  
Imagine this one cell. He's gotten through the piss  
So he can blame few  
Slept off the chainsaw buzz  
This passing eye-sore  
These are the longest days  
Sits like a razor  
How many found?  
We know him as one cell  
Should've combined to save brains.  
How 'bout I teach him to crawl.  
Lift up the head so proud.  
Imagine this one cell. This defines him  
So useless these rules  
Tempting timing  
I should use the same tools We know him as one cell  
Should've combined to save brains.  
How 'bout I teach him to crawl.  
Lift up the head so proud.  
Imagine this one cell. Should've combined to save brains.  
How 'bout I teach him to crawl.  
Lift up the head so proud.  
Imagine this one cell.  
Imagine this  
Imagine this  
Imagine this  
One.
