

# Belong

## Cash Cash & Dashboard Confessional

Get in the car, I'll drive  
We got no place to be on time  
So let's just enjoy the ride We can go wherever the road decides for  
We can head for the shore  
Or some place we've never been before  
Just climb in and close the door  
We've got nothing to answer for 'Cause you, you belong with me  
And I belong with you  
You belong with me  
And I belong with you  
I belong with, I belong with you  
Reach out and take my hand  
We got the radio pumping jams  
We don't got no map and we don't got plans  
We don't gotta follow anyone's demands  
Feel the wind blowing in your hair  
The sun on your face and a song in the air  
We can go as fast as we ever dare  
Until we see tomorrow in the rearview mirror 'Cause you, you belong with me  
And I belong with you  
You belong with me  
And I belong with you  
I belong with, I belong with you  
You, you  
You, you  
With you, you  
I belong with, I belong with you  
Get in the car, I'll drive  
We got no place to be on time  
So let's just enjoy the ride  
We can go wherever the road decides 'Cause you, you belong with me  
And I belong with you  
You belong with me  
And I belong with you  
You belong with me  
And yeah, I belong with you Where you go, I'll go  
'Cause I belong with you  
Where you go, I'll go  
'Cause I belong with you
