

Love Like That

Lauv

You say I spend too much time in my head and it holds me back
I think you spend too much time givin' me second chances
That I don't deserve, and it hurts You give me the kinda love that I never had
Wish that I could love, love, love you back
Wish that I could love, love, love you back
Wish that I could love like that
You give me your unconditional
Don't mean to sound so typical
I wish that I could love, love, love you back
Wish that I could love like that, mmm
Wish that I could love like
You, that weekend, we were sleeping
In that London hotel room
Heard you singing in the shower
Damn, near broke my heart in two
And I don't deserve you
And it hurts to Get the kinda love that you never had
Wish that you could give, give, give it back
Wish that I could love, love, love you back
Wish that I could love like that
You give me your unconditional
Don't mean to sound so typical
I wish that I could love, love, love you back
Wish that I could love like that
Wish that I could love like that But look at us, we're almost crawlin'
And wished that I could finish where we started
But I don't know 'bout
To give the kinda love that you deserve
Knowing that I can't, just makes it worse
Wish that I could love, love, love you back
Wish that I could love like that
You give me your unconditional
Don't mean to sound so typical
I wish that I could love, love, love you back
Wish that I could love like that You are perfect
Wish that I could
You are perfect
Wish that I could
