

# Fade Into the Background

Ne-Yo

She looks so good in that white dress  
At the far end of the aisle  
Standing where I should be standing  
Some other man on his face there's a smile I just walked in sat down silent  
I stood outside for awhile  
Wondering why did I come here  
Face it you messed up and now she's with somebody else And now all I can do is smile  
And fade into the background  
I'll say congratulations and I'll fade into the background  
Such a lovely reception  
I sit here sipping Rosé  
Then we catch eyes for a second  
Both of us smile then quickly look away It's funny you don't know what you got  
Till you ain't got it no more  
Put down my glass grab the bottle  
I throw it back and I shout she with somebody else And now all I can do is smile  
And fade into the background  
I'll say congratulations and I'll fade into the background Fade right into the background  
She's with somebody else  
And now all I can do is smile  
And fade into the background  
I'll say congratulations and I'll fade into the background
