Fade Into the Background

She looks so good in that white dress At the far end of the aisle Standing where I should be standing Some other man on his face there's a smileI just walked in sat down silent I stood outside for awhile Wondering why did I come here Face it you messed up and now she's with somebody elseAnd now all I can do is smile And fade into the background I'll say congratulations and I'll fade into the background Such a lovely reception I sit here sipping Rosé Then we catch eyes for a second Both of us smile then quickly look awayIt's funny you don't know what you got Till you ain't got it no more Put down my glass grab the bottle I throw it back and I shout she with somebody elseAnd now all I can do is smile And fade into the background I'll say congratulations and I'll fade into the backgroundFade right into the background She's with somebody else And now all I can do is smile And fade into the background I'll say congratulations and I'll fade into the background
