

Just a Friend

Mario Vazquez

Ohhh yeah
Yeah, yeah, yeah[Chorus:]
I can't believe it girl
You wanna leave me girl
Let's fall in love again
Baby she was just a friend
And now I'm tryna call
But your phone is off
I know I broke your heart
But baby she was just a friend
Ain't nothing different here
No need to disappear
Let's fall in love again
Baby she was just a friend
Don't wanna fall apart
Tried to stop her from the start
I know I broke your heart
But baby she was just a friend
[Verse 1:]
Open the door (baby)
I can hear your phone (ringing)
Plus your car is rom so I know you just got home
I hear you breathing real hard
So close to you
Yet I'm so far
We gotta talk this thing over
You still haven't heard my story, no[Hook:]
Baby I need you
I'm gon' stand right here
Until your heart agrees to
Let me in
Cuz nothing else matters
My life is ungathered
Don't let us be a memory
[Chorus:]
I can't believe it girl
You wanna leave me girl
Let's fall in love again
Baby she was just a friend
And now I'm tryna call
But your phone is off
I know I broke your heart

But baby she was just a friend
Ain't nothing different here
No need to disappear
Let's fall in love again
Baby she was just a friend
Don't wanna fall apart
Tried to stop her from the start
I know I broke your heart
But baby she was just a friend Baby, don't speak (speak)
Just sit (no, no don't leave)
See I'm not gonna let us not be together, no
There's not too much that I can say
Just wanted you to see my face
So you can see the expressions of my deepest regrets
Sayin' oh, oh, oh, oh, oh
Don't go, don't go (baby)
Let me in[Hook:]
Cuz nothing else matters
My life is ungathered
Don't let us be a memory[Chorus:]
I can't believe it girl
You wanna leave me girl
Let's fall in love again
Baby she was just a friend
And now I'm tryna call
But your phone is off
I know I broke your heart
But baby she was just a friend
Ain't nothing different here
No need to disappear
Let's fall in love again
Baby she was just a friend
Don't wanna fall apart
Tried to stop her from the start
I know I broke your heart
But baby she was just a friend[Bridge:]
I don't want you to go, no
This ain't cool wit' me
I know I cut you deep emotionally (emotionally)
Don't nobody deserves this no, no
So baby please believe me
I can't believe it girl
You wanna leave me girl
Oh, and baby she was just a friend
I'm trying to call
Oh, I know I broke your heart[Chorus:]
I can't believe it girl
You wanna leave me girl
Let's fall in love again

Baby she was just a friend
And now I'm tryna call
But your phone is off
I know I broke your heart
But baby she was just a friend
Ain't nothing different here
No need to disappear
Let's fall in love again
Baby she was just a friend
Don't wanna fall apart
Tried to stop her from the start
I know I broke your heart
But baby she was just a friend
