

BE HERE LONG

NEED TO BREATHE

Close my eyes and think of you
Go to sleep and dream of you
We don't get to be here long
I gave you the best of me
Loved you more than anything
But we don't get to be there long
We don't get to be here long And though my heart may be in pieces
My eyes are still set on you
And though I can't keep it together
I know that you want me to Oh I'm swimming in the grief
And there's no ache that could hold me down
And I don't want any relief
Cause I don't wanna let you go right now
Close my eyes and think of you
Go to sleep and dream of you
We don't get to be here long
(we don't get to, we don't get to, be here)
I gave you the best of me
Loved you more than anything
But we don't get to be there long You're moans were a charity
They gave me more than I could need
Yeah I know you found the promised land
But I'm still here and I'm missing you Close my eyes and think of you
Go to sleep and dream of you
We don't get to be here long
(we don't get to, we don't get to, be here)
I gave you the best of me
Loved you more than anything
But we don't get to be there long
When the day gone
And the fire is out
I wanna know that
I gave you up, I gave you all I had
When the day gone
And the fire is out
I wanna know that I gave you my everything Close my eyes and think of you
Go to sleep and dream of you
We don't get to be here long
(we don't get to, we don't get to, be here)
I gave you the best of me
Loved you more than anything
But we don't get to be there long

Oh we don't get to be there long
We don't get to be there long
