

# BE HERE LONG

## NEED TO BREATHE

Close my eyes and think of you  
Go to sleep and dream of you  
We don't get to be here long  
I gave you the best of me  
Loved you more than anything  
But we don't get to be there long  
We don't get to be here long And though my heart may be in pieces  
My eyes are still set on you  
And though I can't keep it together  
I know that you want me to Oh I'm swimming in the grief  
And there's no ache that could hold me down  
And I don't want any relief  
Cause I don't wanna let you go right now  
Close my eyes and think of you  
Go to sleep and dream of you  
We don't get to be here long  
(we don't get to, we don't get to, be here)  
I gave you the best of me  
Loved you more than anything  
But we don't get to be there long You're moans were a charity  
They gave me more than I could need  
Yeah I know you found the promised land  
But I'm still here and I'm missing you Close my eyes and think of you  
Go to sleep and dream of you  
We don't get to be here long  
(we don't get to, we don't get to, be here)  
I gave you the best of me  
Loved you more than anything  
But we don't get to be there long  
When the day gone  
And the fire is out  
I wanna know that  
I gave you up, I gave you all I had  
When the day gone  
And the fire is out  
I wanna know that I gave you my everything Close my eyes and think of you  
Go to sleep and dream of you  
We don't get to be here long  
(we don't get to, we don't get to, be here)  
I gave you the best of me  
Loved you more than anything  
But we don't get to be there long

Oh we don't get to be there long  
We don't get to be there long
