

# Subway (Epilogue)

Peter Murphy

It's like there's a straight way  
You know, you know  
I've told you before it's as thin as ice  
As thin as the razor snow Don't freeze in the snow  
Don't bake in the heat  
I'll be your breath  
There's a place where we can meet There's a place where we can meet  
There's a place where we can meet Use me  
Don't sleep in the subway  
Don't sleep in the pouring rain  
Use me  
Don't sleep in the subway  
Don't sleep in the pouring rain Be my voice in my midnight meditation  
When I wake, be my heart's flotation  
Come and fill, come and fill from the overflow  
Come and play, come and play, be like a bird Don't sleep in the subway, I'm, I'm needing you  
Well I, I feel you, you're closing down, yeah  
Get close, talk right through me  
Get close, keep tight with me If you fall now it could be forever  
I'm telling you the line is thin now  
I've told you before this hate is a sin  
Empty out for the overflow, let love begin Don't sleep in the subway  
Don't sleep in the pouring rain  
Don't sleep in the subway  
Don't sleep in the pouring rain There's a place where we can meet  
There's a place where we can meet  
There's a place where we can meet  
There's a place where we can meet
