

# Easier (Lower Spectrum Remix)

## Mansionair

Face up, untouched  
Gazing at the ceiling  
Game's up, never bring you down  
Face up, I'll lose  
Carving for some feeling  
Game's up, we're nowhere to be found I'm stuck, I'm stuck, I'm stuck here in my skin  
I'm stuck, I'm stuck, I'm stuck with you Tell me it gets easier, tell me it gets easier  
Tell me it gets easier, that I'll figure it out  
Tell me it gets easier, tell me it gets easier  
Oh tell me it gets easier, that I'll figure it out  
(Easier, easier, easier, easier, easier, easier, easier, easier, easier, easier, easier, easier) Face up,  
untouched  
Craving for some healing  
Take off better than the rest  
Game's up, it's too much  
Oh your the king of healing  
Take off, I'm staring at the ground  
Tell me it gets easier, tell me it gets easier  
Tell me it gets easier, that I'll figure it out  
Tell me it gets easier, tell me it gets easier  
Tell me it gets easier, that I'll figure it out (Easier, easier, easier, easier, easier, easier, easier,  
easier) I'm stuck, I'm stuck, I'm stuck with you (Easier, easier, easier, easier, easier, easier,  
easier, easier, easier, easier)
