In the city , there is no pity, wellChill out chill out chill out, New York  
Chill out chill out chill out, New York  
Chill out chill out chill out, New York  
Chill out chill out chill out, New YorkTo Penetrate the masses, you gotta talk to the bosses  
Pure top ranks, upward ranks (?) cool runnings inna Brooklyn  
And enough cool chill pill , a mean machine inna Queens  
Chill out chill out chill out, New York  
Chill out chill out chill out, New York  
Chill out chill out chill out, New York  
Chill out chill out chill out, New YorkA knife and a fork, a bottle and a cork (say what)  
That's New York  
Skyscraper, heartbreaker,  
Somewhere, they're dere, they're dereChill out chill out chill out, New York  
Chill out chill out chill out, New York  
Chill out chill out chill out, New York  
Chill out chill out chill out, New YorkGood for the second street, that's where the boy's meet  
You can get what you want, from a reefer to a spliff  
From a joint to a point  
They'll be crying a riff (?)  
Chill out chill out chill out, New York  
Chill out chill out chill out, New York  
Chill out chill out chill out, New York  
Chill out chill out chill out, New York  
Chill out chill out chill out, New York  
Chill out chill out chill out, New York  
Chill out chill out chill out, New York  
Chill out chill out chill out, New York
