

# Dance

## Parmalee

My truck bed, cargo light  
Is her spot light any night of the week  
Just crank the radio, slide the rear glass and let her go  
Oh, I think it's in her genes  
Born a ray a light on the verge of green  
Cause when she's feelin' that beat  
Oh, she's gonna Dance, dance, dance all night to the music  
Move, Move, yea every move she's making me lose it  
All the girl wants to do is groove and  
What her mama gave her she's gonna use it  
Everytime that she get's the chance  
Yea, she's gonna  
Dance, dance, dance  
First thing, slow it down  
Make a little room, drop the tailgate down  
Don't mind puttin' on a show  
When nobody ain't around nobody's gonna know  
Oh, in that lakeside fog  
Fireflies shinin' for a disco ball  
DJ spinnin' those songs  
Cause she's gonna Dance, dance, dance all night to the music  
Move, Move, yea every move she's making me lose it  
All the girl wants to do is groove and  
What her mama gave her she's gonna use it  
Everytime that she get's the chance  
Yea, she's gonna  
Dance, dance, dance  
Yea, she's gonna  
Dance, dance, dance  
My truck bed, cargo light  
Is her spot light any night of the week  
Just crank the radio  
And she's gonna Dance, dance, dance all night to the music  
Move, Move, yea every move she's making me lose it  
All the girl wants to do is groove and  
What her mama gave her she's gonna use it  
Everytime that she get's the chance  
Yea, she's gonna  
Dance, dance, dance  
(All night to the music)  
Dance, dance, dance  
(All night to the music)

Dance, dance, dance  
(All night to the music)  
Dance, dance, dance
