

Love Is Gonna Lift You Up

[Bobby Womack](#)

Where does a heart beat?
Does it dream inside?
A new day
It can come alive The dawn will come
The sun will rise
Hope it turns
As fish, upside Time will heal and see the change
Love can bring you past the pain
Love is gonna lift you up Where there's construction
There's a future lying
A new city under the bright lights The dawn will come
The sun will rise
Hope it turns
As fish, upside Time will heal and see the change
And love will bring you past the pain
Love is gonna lift you up Love is gonna lift you up I'll be honest and by your side
Whatever more
