## I Will Follow You

## **Toulouse**

I will follow youFollow you wherever you may go

There isn't an ocean too deep

A mountain so high it can keep

Keep me away

Away from my love

I love you

I love you

I love youWhere you go, I follow

I follow

I followYou'll always be my true love

My true love

My true love

Forever

I will follow youEvery since you touched my hand, I knew

Near you, I always must be

Nothing can keep you from me

You are my destinyI love you

I love you

I love youI love you

I love you

I love youWhere you go, I follow

I follow

I followYou'll always be my true love

My true love

My true love

Forever

I will follow youFollow you wherever you may go

There isn't an ocean too deep

A mountain so high it can keep

Keep me away

Away from my love
