

Light

San Holo

I just wanna see
I just wanna see the light
I just wanna see
I just wanna see the light
I just wanna see
I just wanna see the light
I just wanna see the light Even if it makes me blind
I just wanna see the light
Breathing, leave it all behind
I just wanna see the light Even if it makes me blind
I just wanna see the light
Breathing, leave it all behind
I just wanna see the light
I just wanna see the light
I just wanna see the light
I just wanna see the light
I just wanna see the light
Light. light. light. light. light. light. light.
I just wanna see the light I just wanna see the light. Even if it makes me blind
I just wanna see the light
Breathing, leave it all behind
I just wanna see the light Even if it makes me blind
I just wanna see the light
Breathing, leave it all behind
I just wanna see the light
Even if it makes me blind
I just wanna see the light
Breathing, leave it all behind
I just wanna see the light I just wanna see the light
I just wanna see the light
I just wanna see the light
I just wanna see the light
Light. light. light. light. light. light. light.
I just wanna see the light I just wanna see the light. I just wanna see
I just wanna see the light
I just wanna see
I just wanna see the light
I just wanna see
I just wanna see the light
I just wanna see the light. I just wanna see the light.
Even if it makes me blind.

Even if it makes me blind.
