

# I Don't Wanna Love Somebody Else

## A Great Big World

Oh I built a world around you  
Oh you had me in a dream, I lived in every word you said  
The stars had aligned  
I thought that I found you  
And I don't wanna love somebody else Oh we left it all unspoken  
Oh we buried it alive and now it's screaming in my head  
Oh I shouldn't go on hoping  
Oh that you will change your mind and one day we could start again  
Well I don't care if loneliness kills me  
I don't wanna love somebody else  
Oh I thought that I could change you  
Oh I thought that we would be the greatest story that I tell  
I know that it's time to tell you it's over  
But I don't wanna love somebody else
