

# Arms Around Your Love

Chris Cornell

With his arms around your love  
Oh no, here comes the pain that you can't ignore  
With his arms around your girl  
He'll do all of the things you didn't do before  
You had every chance, but you closed the door  
Now you're just gonna have to take it  
(Cause if you didn't know)  
She's gonna make you pay for it  
(At a price you can't afford)  
You're just gonna have to take it  
With his arms around your love (x3)  
Oh, yeah  
Pretend that you  
don't mind  
But you know everything that you left behind  
And it would have been alright  
If you'd gave half of the praise that you held inside  
You thought she'd hang around for the ride  
Now you're just gonna have to take it  
(Cause if you didn't know)  
She's gonna make you pay for it  
(At a price you can't afford)  
You're just gonna have to take it  
With his arms around your love (x3)  
Coming clean feels so  
dangerous  
Just a little bit would have been enough  
But you never said all the words caught in your head  
As if your heart was dead  
Well now its surely bled and broken up  
And it would have been alright  
If you'd gave half of the praise that you held inside  
You thought she'd hang around for the ride  
Now you're just gonna have to take it  
(Cause if you didn't know)  
She's gonna make you pay for it  
(At a price you can't afford)  
You're just gonna have to take it  
With his arms around your love
