

# Giant

## Matrimony

Does it feel good to leave me behind  
Do you like the way I look when I'm crying  
When you said that I'd be yours until we die  
Does it feel good to leave me behind There's a giant leading me to God knows where  
I've got news i'm going my way  
Fighting and I feel I'm getting somewhere  
All is right, all is right There's a giant leading me to God knows where  
I've got news i'm going my way  
Fighting and I feel I'm getting somewhere  
All is right, all is right  
Does it feel good to leave me on my own  
When you said that I'd be yours when you got home  
When you know I don't have nowhere else to go  
Does it feel good to leave me on my own Ohhhhhhhh whyyy  
Ohhhhhhhh whyyy  
Ohhhhhhhh whyyy There's a giant leading me to God knows where  
I've got news i'm going my way  
Fighting and I feel I'm getting somewhere  
All is right, all is right There's a giant leading me to God knows where  
I've got news i'm going my way  
Fighting and I feel I'm getting somewhere  
All is right, all is right All is right  
There's a giant leading me to God knows where  
I've got news i'm going my way  
Fighting and I feel I'm getting somewhere  
All is right, all is right  
All is right
