## **Matrimony**

Does it feel good to leave me behind Do you like the way I look when I'm crying When you said that Id be yours until we die Does it feel good to leave me behindThere's a giant leading me to God knows where I've got news i'm going my way Fighting and I feel I'm getting somewhere All is right, all is rightThere's a giant leading me to God knows where I've got news i'm going my way Fighting and I feel I'm getting somewhere All is right, all is right Does it feel good to leave me on my own When you said that I'd be yours when you got home When you know I don't have nowhere else to go Does it feel good to leave me on my ownOhhhhhhh whyyy Ohhhhhhh whyyy Ohhhhhhh whyyyThere's a giant leading me to God knows where I've got news i'm going my way Fighting and I feel I'm getting somewhere All is right, all is rightThere's a giant leading me to God knows where I've got news i'm going my way Fighting and I feel I'm getting somewhere All is right, all is rightAll is right There's a giant leading me to God knows where I've got news i'm going my way Fighting and I feel I'm getting somewhere All is right, all is right All is right
