

When You're Mine

[EMF](#)

Say to me, you're feeling fine
You're on another high climb, lost cause
To save us all
From the start of it all
Say to me, you're feeling fine
This time is ours, time is hype
Talk about, get on out another
Chance for us all When will I see you
I see the days passing by
When will you say it
I need your words saying
When will your words
Tow the line
And when you're here, don't be here
Cause all I see are your lips
And when you're mine, smile with grace
Because it's the last time, I see your face
When you're mine
When will you do it
When will your hands touch mine
When will I feel yours in mine
When will you say it
I need your word saying
When will your words
Tow the line
