

Hands Up

TLC

Rollin' to the club
Stop to get my grub on
Nothin' like those Krispy Kremes Soon as I was done
It was time to get my groove on
Find a place that's happenin'
And I knew that it was on From the moment
That I walked into the spot
It was bangin', it was swangin', oh
Till somethin' turned me off I wasn't sure, coulda swore
I saw you with someone
And at much to my surprise, woah
You were right there
With your hands up in the air
You had hoochies everywhere, all on you
It's like I almost didn't know you Tryin' to shake that ass
Playa, you don't even dance
Wassup wit' you
It's like I don't even know you Left you at the crib
'Cause I know you get your game on
Happens every Tuesday night You said that you was cool
Your boys was comin' by
(Go baby, have yourself a real good time)
So I knew I could be wrong I was thinkin' there's
No way it could be you
Not my baby, he ain't crazy, no
And my girlfriends tipped me off
When I got closer
I could tell that it was you
You was bangin', you was swangin', oh You were right there
With your hands up in the air
You had hoochies everywhere, all on you
It's like I almost didn't know you Tryin' to shake that ass
Playa, you don't even dance
Wassup wit' you
It's like I don't even know you You were right there
With your hands up in the air
You had hoochies everywhere, all on you
It's like I almost didn't know you Tryin' to shake that ass
Playa, you don't even dance
Wassup wit' you
It's like I don't even know you Mindin' my own business, my pager's goin' off
My girlfriends tryin' to tell me, you're doin' wrong

I needed confirmation, I knew you was a dog
I just can't believe what I saw You were right there
With your hands up in the air
You had hoochies everywhere, all on you
It's like I almost didn't know you Tryin' to shake that ass
Playa, you don't even dance
Wassup wit' you
It's like I don't even know you You were right there
With your hands up in the air
You had hoochies everywhere, all on you
It's like I almost didn't know you Tryin' to shake that ass
Playa, you don't even dance
Wassup wit' you
It's like I don't even know you You were right there
With your hands up in the air
You had hoochies everywhere, all on you
It's like I almost didn't know you Tryin' to shake that ass
Playa, you don't even dance
Wassup wit' you
It's like I don't even know you
