

Solidarity

Angelic Upstarts

All the Polish workers fight to make their stand
And behind them every honest working men
In unity there's each other
And your friend becomes your brother
And in the tyrant's heart will be a lesson learned Give them hope, give them strength, give them
life

Like a candle burning in the black of night
We are with you in our hearts and in our minds
And we'll pray for our nation through its darkest times
I know that your hearts are made of a further kind
And a riot stick won't kill your piece of mind
You can fight with all the spirit that you possess
Because your fight is a struggle that is blessed Give them hope, give them strength, give them
life

Like a candle burning in the black of night
We are with you in our hearts and in our minds
And we'll pray for our nation through its darkest times The tyrant has no smile upon his face
'Cause he knows that in his mind he's in disgrace
Remission of you will take his breath away
Until we come and we will have our day Give them hope, give them strength, give them life

Like a candle burning in the black of night
We are with you in our hearts and in our minds
And we'll pray for our nation through its darkest times
As the Polish workers fight to make their stand
And behind them every honest working men
Join hands with your brother
And then you can help each other Watch the tyrant burn in the fire that he had built
