Sweet Darlin

Heart

Sweet darlin'

You saved me

I'm hummin'

From the lovin'

You gave me

You went so far

Where my feelings are

Breathing heaven fire

Sweet darlin'I know you

You stopped running

You knew I had something

To show you

The fever tamed

Like an angel came

Made music of my name

Sweet darlin'

Early that morning we knew I had to fly

Engines were screaming and still I was asking myself why

High on the wind I was feeling my sweet darlin' cry

My heart was breaking

I closed my eyes

Darlin'

Can you hear me

We can't be wrong

The night's song

Pulls you near me

Time just falls

Distance small

I feel you all

Sweet darlin'
