

Put Some Music On

Boyz II Men

Lay head on the pillow
Stay for a while
I'm getting hungry for something that only you can provide
I know we met in the club
But that don't mean
I know mean nothing to me
You know I know what I'm doing
So listen listen to it, ooh I'm gonna put some music on
This gonna make you wanna love me all night long, ooh
But I put some music on
This gonna make you wanna all night long
Uuh uuh uuh yeah
Girl, it's cold and it's raining
But it's warm inside
The way it's feeling baby any
So will do tonight
I know we just met in club
But that don't mean, that don't mean nothing to me
I know you know what you're doing
You late but I'm doing ooh I'm gonna put some music on
This gonna make you wanna love me all night long, ooh
But I put some music on
This gonna make you wanna all night long
Uuh uuh uuh yeah
I'm gonna put some music on
This gonna make you wanna love me all night long, ooh
But I put some music on
This gonna make you wanna all night long
Uuh uuh uuh yeah
