

I Said Hi

Amy Shark

[Verse 1]

I stand in the corner like a tired boxer
One hand on my cheekbone, one hand on the rope
And all my veins pump blood into my throat
So I can hit the note, go do it all again[Chorus]
Tell 'em all I said hi (hi)

Tell 'em all I said hi (hi)[Verse 2]

And I lay half awake, thinking what's it's gonna take
For my moment to arrive, so sick and paralyzed
And I chew my gum on the left side of my mouth
Wonder when I'll spit it out, yeah, I'm just getting started

[Chorus]

Tell 'em all I said hi, hope you've been well
You've been asleep while I've been in hell
Tell 'em all I said hi, have a nice day
I'll be just fine, don't worry 'bout me
Tell 'em all I said hi (hi)

Tell 'em all I said hi (hi)[Verse 3]

I stand in the corner like a tired boxer
One hand on my cheekbone, one hand on the rope
And all my veins pump blood into my throat
So I can hit the note, go do it all again[Chorus]
Tell 'em all I said hi, hope you've been well
You've been asleep while I've been in hell
Tell 'em all I said hi, have a nice day
I'll be just fine, don't worry 'bout me
Tell 'em all I said hi (hi)
Tell 'em all I said hi (hi)

[Bridge]

Lying on my side, watching time fly by
And I bet the whole world thought that I would give up today
Lying on my side, watching time fly by
And I bet the whole world thought that I would give up today
Lying on my side, watching time fly by
And I bet the whole world thought that I would give up today
Lying on my side, watching time fly by
And I bet the whole world thought that I would give up
Yeah, I bet the whole world thought that I would give up[Chorus]
Tell 'em all I said hi, hope you've been well
You've been asleep while I've been in hell
Tell 'em all I said hi, have a nice day
I'll be just fine, don't worry 'bout me

Tell 'em all I said hi (hi)
Tell 'em all I said hi
