

# Haze Girl

Zoé

Haze Girl I don't know her  
But I don't mind,  
I think that I am going crazy  
I met her in a Sunday morning  
Descending from the thunder haze, Put your hands in my hand and close my eyes with your  
fingers,  
Put your lips girl on my mouth,  
I love all the ways you used to make me feel better  
Well take your time we live inside anatomic  
Haze girl,  
Beautiful girl,  
Step out of the rain and let everything vanish away  
Oh changes  
It's hard to go on but it's better than fading away. I think that I am going crazy Put your hands in  
my hand and close my eyes with your fingers,  
Put your lips girl.....  
I love all the ways you used to make me feel better  
Well take your time we live inside anatomic  
Haze girl,  
Beautiful girl  
Step out of the rain and let everything vanish away  
Oh changes  
It's hard to go on but it's better than fading away (3x's) La la la la la na na na na na la da  
da.....Fading Away
