

# Spooky

## New Order

Once in a while I need a friend  
So why won't you let me recover  
It's just a moment in your life  
But sometimes we divide each other  
Maybe we could find a time  
Eliminate what's on your mind  
We'd do everything we could  
Our presence in the neighbourhood  
We could break every rule  
Anytime we wanted to  
Don't be afraid to live this way  
Let's defend the things we say  
I want to be up in the air  
I could be anywhere  
Tell me I'm wrong at least 'til tomorrow  
Set me free, and I will follow  
Maybe we could find a time  
To elevate what's on your mind  
Recreate for me and you  
A master plan just for two  
We could break every rule  
Anytime we wanted to  
Don't be afraid to live this way  
Let's defend the things we say  
We could break every rule  
Anytime we wanted to  
Don't be afraid to live this way  
Let's defend the things we say  
We could break every rule  
Anytime we wanted to  
Don't be afraid to live this way  
Let's defend the things we say  
Elevate what's on your mind  
Elevate what's on your mind  
Elevate what's on your mind
