

# Evil Team (feat. Or3o)

## CG5

I want to be like you in every way  
Your villainy, I want to be the same  
You're always right  
Never giving up the fight  
Teach me just how to be the bestest bad guy! You and me, livin' it up as an evil team  
So carefree, malevolence burns in my bloodstream Try and flee, you can't run away from our  
misdeeds  
No mercy, continue the fight until you bleed We'll crush  
We'll thrash  
Anyone from where they stand  
We'll come up with the greatest evil plan  
Unstoppable  
We'll kick all of their butts  
But first, let's share  
This jelly donut Innovation is the spice of vice  
Wreak devastation as we slice and dice  
These clowns, they don't know how to die  
But we'll teach them we're the bestest bad guys You and me, livin' it up as an evil team  
So carefree, malevolence burns in my bloodstream  
Try and flee, you can't run away from our misdeeds  
No mercy, continue the fight until you bleed Take heed of my words  
I cannot let you escape  
Please don't press onward I'm tired of playing this game  
Unfaithful traitor  
Shut up, get out of my way  
My pain is greater  
But you can't keep me at bay Don't you remember?  
We were the most glorious gang  
Never surrender  
Let's stick together! You and me, bringin' the peace and harmony  
Together we'll wake him up from his evil dreams  
Fierce and free, tearing the conflict from the seams  
He'll never bring to pass his philosophy You and me, bringin' the peace and harmony Yo, Susie,  
please oh please, remember me
