

Hostage

Sia

You bring me to life, then you shut me out
You keep me silent when I should shout out
You make me cry when you make me cum
You are the cop and I'm on the run
It all begins just one kiss
I'm hostage by your love
Put me in cuffs, lock me up
I'm hostage by your touch
This prison is rough and I can't get enough
The secret about us keeps being a ghost
Go lock me up, and don't you want to free us
I'm hostage by your love
When you let me out and I catch the sun
You give me a taste of you and no one
But you're always leaving, again I'm alone
This secret burns when I'm in prison
It all begins just one kiss
I'm hostage by your love
Put me in cuffs, lock me up
I'm hostage by your touch
This prison is rough and I can't get enough
The secret about us keeps being a ghost
Go lock me up, and don't you want to free us
I'm hostage by your touch
Ooh secret effortless
Those who have heard those under the covers
And why do you break my heart?
I'm a criminal in these parts
It all begins with one kiss
I'm hostage by your love
Put me in cuffs, lock me up
I'm hostage by your touch
This prison is rough and I can't get enough
The secret about us keeps being a ghost
Go lock me up, and don't you want to free us
I'm held hostage by your love
It all begins just one kiss
I'm hostage by your love
Put me in cuffs, lock me up
I'm hostage by your touch
This prison is rough and I can't get enough
The secret about us keeps being a ghost
Go lock me up, and don't you want to free us
I'm hostage by your love
