Heaterz (feat. CappaDonna)

Wu-Tang Clan

Hang glide for my nigga Tical Yo, word to God we run this whole shit, son

Right that's my word

Guaranteed you're dealin' with the invincibleThat's my word, Persian legacy one time, one time Check the science of the black man

Stationary niggaz, have fun on this right here

Yo Shorty cross your armsGonna rock niggaz to sleep this year

Blade thrower, sword swinga, killa bee ringer

Rocky road roll dark greener

Cream fade mas, name your God UkaremaShout out Medina, federaloes Noxzema

Me jury cleaner, Million Man March screamers

Rae Cartegna, cut your joint Wolverine

The lonzina, wrapped around the wrist, law seen her

How I got that yo, threw out the macker named Gina

Bust a shot, seen her, it ricocheted, tapped Tina

Now I'm out, lampin' in Korea with Talima

We moseyin', sweatsuit Adidas, best believel got the black heater little joint, probably Moschino

Yo, Bobby Robby, whattup, Max tried to follow me

Sadaam loungin', clean up collect, like the laundry

It's time yo swerve like the Nike lineWindbreaker Laker throw a jump shot scrape her Statuary yo floatin' that snatch-uary

Aiyyo, blow a hole in your limo, weed pass the dutchYo, this is MC wizardry, killa bee invasion

Men of respect, blessed with wisdom of the ancients

My words are blatant, lacerate necks for statements

Are launched like lead projectiles, straight out the basement

I suplex your rap, left ruined like the Aztecs

Parasites, double edge dice your larynx

My hip-hop, swarmin' team locked inside the detox

Under key flock, it's like B-block and E-glocksYou're ill, your trail end thoughts are frail

I strike the cypher and let one survive to tell the tale

Of my state of grace, I raise the stakes on snakes

Knock 'em off like the big eights for takin' up spaceNever did fear 'em, stick 'em with the truth serum

Who sent 'em, arrest 'em before my charge is ended

Designated hitter flows with the transistor

Kinetic globes light will then shine, burns your retinaUrban journal, plus eternal broadcaster Before and after, I be self lord and masterI be the Ironside, get touched with the chloride

Take walk with the Nine Finger bandits worldwide

Shaolin hillside, full of homicides

Fuck you dissastified the double dyed black brown I adviseYo, box talk sequence, powerhouse kickout

Eyes dusty, wet, butt-naked with my dick out

I'm direct, golden best, golden chest is blessed

Scarce chapter, snatcher batcher went to freshIt sound far fetched, mountain men that be rich You get buckshot, dumb be clapped, mummy wrapped and stitched

The Jeffrey Dahmer Notre Damer sing the song the strongest

Brute force bullet hole straight through your chorusShank you with the think tank, harmony cake cut

A can of ass whoopin' flurry shake, break you fucks Struck, love crooks, why for lyin' hooks

Chef cocaine cook, a marvelous book

This death bent doctrine, paper for the youth

What remains, a saber-toothed tiger in the boothLast night, I took a trip down to Crown Heights
Fast life, females are trife, stay tight

I detect that parasite, satellite

RZA beat makes me wanna fight get hyped, come to do showsMy slang sound write secretary

type

Backflip on the mic, I'm the poor black man

Workin' hard for the grand, I understand clear

Don't fear, peep my new gear it's different from yoursMy style drop like jaws, you see me on tours

Don't you wait to say peace, the kid from the street
Put my technology on the track, just then the core attack
Wu article CappaFive, CD attackBut my talk stage live killa beehive
Bermuda my life angle, rectangle gold fronts
Bring the gold dangle, never make me throw darts
Check out my arts, when I release my smarts
Hot like Pop Tarts, aim me at the charts
