

# Guardian Angel

## Alphaville

Be my guard just for tonight  
That is all I'm asking for  
Take me under your wing  
I can't make it anymore I am so full of fear  
May you read a book to me  
And when the shadows grow  
won't you stay with me Will you be my guard tonight  
That is all I'm asking for  
Will you be my guard tonight  
That is all I need to know Be my guard beside my bed  
That is all I need to know  
Would you please hold my hand  
Don't you ever let it go  
All the wonders of the world  
For a little second more  
I can't speak but can't you see  
It's your touch I'm crying for Will you be my guard tonight  
That is all I'm asking for  
Will you be my guard tonight  
That is all I need to know That is all I'm asking for  
That is all I need to know  
That is all I'm asking for Be my guard just until dawn  
When I can hear the birds again  
I'm as helpless as can be  
Will you guard my little flame  
If we never meet again  
You shall always keep in mind  
That you were my guard tonight  
That you were my guard tonight Will you be my guard tonight  
That is all I'm asking for  
Will you be my guard tonight  
That is all I need to know Will you be my guard tonight  
That is all I'm asking for  
Will you be my guard tonight  
That is all I need to know That is all I need to know  
That is all I need to know  
That is all I need to know
