## Stinker

## **Elton John**

One, two

One, two, three, fourSay what you will but I'm a stinker
I come crawling up out of my hole
Dirt in my toes, dirt up my nose

I'm a perfect curse to pest controlSeeds and weeds and muddy meals

Crawling around the earth

Down in the ground where the sun don't pound Ohh, I hibernated in English turfBetter believe it, I'm a stinker

Burning vermin stink

Watch me get as high as a heat wave honey

Tell me what your hound dogs think

Set in my style with a beady eye

I got connections with the underground

Call me a common rodent boy

Sitting here safe and soundBetter believe it, I'm a stinker

Burning vermin stink

Watch me get as high as a heat wave honey

Tell me what your hound dogs think, yeaAoo, better believe it, I'm a stinker

Burning vermin stink

Watch me get as high as a heat wave honey

Tell me what your hound dogs thinkSome mole hill mother sauntered by

Acting like the ace of spades

Ohh, don't give that cutey no reason to shoot me

When I'm living on the eggs she laid

Ohh, better believe it, I'm a stinker

Burning vermin stink

Watch me get as high as a heat wave honey

Tell me what your hound dogs thinkStinker, stinkerHey, better believe it, I'm a stinker

Yes me, burning vermin stink

Watch me get as high

Watch me get as high as a heat wave honey

Tell me what your hound dogs think

Aoo, better believe it
