

Cold Blue Rain

Milky Chance

Cold blue rain
I don't wanna think about it
Same old place
Makes me wanna think about it
See your face
Knowing that I'm mad about you
So why embrace, All the things that you do? I know that we'll be forever
Forever together as one
And our hearts to share the same shelter
Into in a place under the same sun
I know that we'll be forever
Forever together as one
And our hearts to share the same shelter
Into in a place under the same sun
My heart is running for your love
My heart is running for your love
My heart is running for your love
My heart
My heart is running for your love
My heart is running for your love
My heart is running for your love
My heart Cold blue rain
Standing right in front of me
Same old place
Yet I won't ever want to leave
See your face
Remembering that I'm mad about you
So why embrace, All the thing that you do?
I know that we'll be forever
Forever together as one
And our hearts to share the same shelter
Into in a place under the same sun
I know that we'll be forever
Forever together as one
And our hearts to share the same shelter
Into in a place under the same sun My heart is running for your love
My heart is running for your love
My heart is running for your love
My heart
My heart is running for your love
My heart is running for your love
My heart is running for your love
