

# Descending (feat. Little Dragon)

## Big Boi

Jag känner att jag faller If ya don't know me by now  
If ya don't know me by now  
If ya don't know me by now  
If ya don't know me by now  
You will never know

If ya don't, if ya don't When I think back, I'm glad I lived it all  
The pain when I'm thinking about it, dad  
I will not fall, even tired and all  
Grandmamas, great grandmama they gone  
My daddy's gone

If ya don't know me by now  
If ya don't know me by now  
If ya don't know me by now  
If ya don't know me by now  
You will never know

If ya don't, if ya don't Hey, even with a storm to face, I still stand tall  
I take beyond, the city I was born and raised  
Lights, lights turn off, running along my own way  
My body lift up, even when I go stray

By now you should know us If ya don't know me by now  
If ya don't know me by now  
If ya don't know me by now  
If ya don't know me by now  
You will never know

If ya don't, if ya don't

From the bottom of my chest to my stomach  
Got damn it, my daddy is gone

(From the waves that rock I listen for you  
I'm listening through) If ya don't know me by now  
If ya don't know me by now  
If ya don't know me by now  
If ya don't know me by now  
You will never know

If ya don't, if ya don't
