

# Don't Test Me

## Faith Evans & The Notorious B.I.G.

You don't stop, then we won't stop  
'Cause we won't stop if you don't stop  
You can be as good as the best of them  
But as bad as the worst, so don't test me (don't test me)  
You better move over (move over)  
And you know that I'm bad than most of them  
I'm the real one to test so don't play me (don't play me)  
I think you know better (know better) Frank White the Desperado used to rock the all-black  
Movado  
The all-black El Dorado  
All that and a bottle of Dom P  
All that, think twice before you try me  
And I'm telling you, they better stay out my way  
'Cause this is the last time I'm warning you  
And I ain't gonna say it no more  
Is Brooklyn in the house without a doubt?  
I'm the rapper with clout everybody yap about  
Check it out guns, I bust em  
Problems with my wife, don't discuss em  
Coupes and Learjets, I lust them  
You can be as good as the best of them  
But as bad as the worst, so don't test me (don't test me)  
You better move over (move over)  
And you know that I'm bad than most of them  
I'm the real one to test so don't play me (don't play me)  
I think you know better (know better)  
You don't stop, then we won't stop  
'Cause we won't stop if you don't stop  
If I'm on top, then you on top  
And we won't stop, we all we got I display, Hot 97 rhyme-ready  
Cocked Mac-11, line steady  
Mama said "falling in love with a thug is dangerous"  
And you know she say facts  
Your mom's an actress  
Yeah whatever, how you gon' talk that trash?  
Matter fact, laid back, let's get this cash  
Like Tevin Campbell, I'm ready  
To do what I do, continuously to get money  
You can be as good as the best of them  
But as bad as the worst, so don't test me (don't test me)  
You better move over (move over)  
And you know that I'm bad than most of them

I'm the real one to test so don't play me (don't play me)  
I think you know better (know better) I'm tellin' you, they better stay out my way  
(niggas can't harm me, I keep the army)  
'Cause this is the last time I'm warning you  
And I ain't gonna say it no more You can be as good as the best of them  
But as bad as the worst, so don't test me (don't test me)  
You better move over (better move over)  
And you know that I'm bad than most of them  
I'm the real one to test so don't play me (don't play me)  
I think you know better (know better)  
You can be as good as the best of them  
But as bad as the worst, so don't test me (don't test me)  
You better move over (move over)  
And you know that I'm bad than most of them  
I'm the real one to test so don't play me (don't play me)  
I think you know better (know better)  
You don't stop, then we won't stop  
'Cause we won't stop if you don't stop  
If I'm on top, then you on top  
And we won't stop, we all we got  
You don't stop, then we won't stop  
'Cause we won't stop if you don't stop  
If I'm on top, then you on top  
And we won't stop, we all we got
