

I Loved You (feat. Irina Rimes) [Extended]

DJ Sava

Let go me, I'm better on my own
This isn't me, this isn't me anymore
Let me be free 'cause this isn't me
Doesn't feel like me I didn't want, I never meant to
So accidentally to fall in love with you
I didn't want, I never meant to
I never meant to
I'm looking for resulting
Searching for a hope
'Cause when you pick me out to
Ghost that door
I am looking for a heart to love me more
Just like I loved you Just like I loved you Just like I loved you Just like I loved you 'cause you
love me wrong Just like I loved you Just like I loved you Just like I loved you My heart was a fire,
your heart was a stone
I loved you so right, but you loved me so wrong. Just like I loved you Just like I loved you Just
like I loved you You didn't see, you didn't feel my pain
You left me here by my self again
Did you ever loved me?
Oh, I was just a game to you
Was just a game to you
I didn't want, I never meant to
I lost my self in this
I sold my soul to you
I didn't want, I never meant to
I never meant to I never meant to fall in love I never meant to fall in love I never meant to fall in
love Just like I loved you
Just like I loved you 'cause you love me wrong Just like I loved you Just like I loved you Just like
I loved you Just like I loved you
Just like I loved you 'cause you love me wrong Just like I loved you Just like I loved you Just like
I loved you Just like I loved you
Just like I loved you 'cause you love me wrong Just like I loved you Just like I loved you Just like
I loved you
