I Loved You (feat. Irina Rimes) [Extended]

DJ Sava

Let go me, I'm better on my own
This isn't me, this isn't me anymore
Let me be free 'cause this isn't me
Doesn't feel like meI didn't want, I never meant to
So accidentally to fall in love with you
I didn't want, I never meant to
I never meant to
I'm looking for resulting
Searching for a hope
'Cause when you pick me out to
Ghost that door

I am looking for a heart to love me more

Just like I loved youJust like I loved youJust like I loved youJust like I loved you 'cause you love me wrongJust like I loved youJust like I loved youJust like I loved youMy heart was a fire, your heart was a stone

I loved you so right, but you loved me so wrong.Just like I loved youJust like I loved youJust like I loved youYou didn't see, you didn't feel my pain

You left me here by my self again
Did you ever loved me?
Oh, I was just a game to you
Was just a game to you
I didn't want, I never meant to
I lost my self în this
I sold my soul to you

I didn't want, I never meant to fall in love

I never meant to I never meant to fall in loveI never meant to fall in loveI never meant to fall in loveJust like I loved you

Just like I loved you 'cause you love me wrongJust like I loved youJust like I loved youJust like I loved you

Just like I loved you 'cause you love me wrongJust like I loved youJust like I loved youJust like I loved you

Just like I loved you 'cause you love me wrongJust like I loved youJust like I loved youJust like I loved you
