

She's Just Killing Me

ZZ Top

Also released on the From Dusk Till Dawn soundtrack. Everything about her was natural

Everything about her was cool
But I'm a little partial for beautiful girls
Even if they blood runs blue I think I see her
I think I want her
I think I love her
She's just killing me
I think she's killing me Her castanets are enormous
Her bongo beat absolute
And when she doin' midnite performances
She's got a secret somethin' to boot
I think I see her
I think I want her
Oh, I think I love her
But she's just killing me
I think she's killing me Miss Satanic Pandemonia
Don't get any lower or slower
What you see is what you get con migo
And the bonus of an albino boar I think I see her
I think I want her
Yes, I think I love her
She's just killing me
She's just killing me
(That's some time I had)
I think I see her
I know I love her
Yes, I might love her
She's just killing me
She wanna be killing me
(Suck my blood)
