

# I Don't Care

Elle Varner

I'm gonna lose this game  
I've got no poker face  
I'm not design for this, this this If I could speak in code  
I wouldn't be so bold  
I can't control my lips, lips, lips I never been subtle and  
I tend to be too loud but  
I'm not ashamed of my words Clearly I'm gone and I'm going  
Into the deep end, far over my head  
It's so unfair I'm gone and it's showing all over my skin  
Everyone knows, gone and it shows  
But I don't care  
How do you make me smile  
Simply by telling the time  
You got the zealous eyes, eyes I, I could just stare all day  
Lay there and melt away  
I'm such a helpless case, case, case I've done away with my pride  
They say I'm out of my mind  
Can't even say it's a lie Clearly I'm gone and I'm going  
Into the deep end, far over my head  
It's so unfair I'm gone and it's showing all over my skin  
Everyone knows, gone and it shows  
But I don't care Going, going, going, going  
Into the deep end, into the deep end  
Going, going, going, going far  
Clearly I'm gone and I'm going  
Into the deep end, far over my head  
It's so unfair I'm gone and it's showing all over my skin  
Everyone knows, gone and it shows
