

Monday Morning Madness (feat. Shannon Hurley)

[Alex M.O.R.P.H.](#)

Monday Morning Madness This city life has got me crazy as usual
Everyday is never changing on the streets below
Rushing around to the sound of the city
Rushing around to the sound of a busy world Its just another day I hear my heart, I feel it
breaking
Every time you go, no time to stop
Youre always leaving me in the cold.
Rushing around to the sound of the city
Rushing around to the sound of a busy world Its just another day (EXTRA)
The day begins, the fog is lifting, I feel alive
With every step a new beginning I see the light
You left me in the rain
Calling out your name
Pretending you dont matter but Im yours to save.
Youre too cool to care
People stop & stare
But you keep walking like its just another day.
