

# Monday Morning Madness (feat. Shannon Hurley)

[Alex M.O.R.P.H.](#)

Monday Morning Madness  
This city life has got me crazy as usual  
Everyday is never changing on the streets below  
Rushing around to the sound of the city  
Rushing around to the sound of a busy world  
Its just another day  
I hear my heart, I feel it  
breaking  
Every time you go, no time to stop  
Youre always leaving me in the cold.  
Rushing around to the sound of the city  
Rushing around to the sound of a busy world  
Its just another day(EXTRA )  
The day begins, the fog is lifting, I feel alive  
With every step a new beginning I see the light  
You left me in the rain  
Calling out your name  
Pretending you dont matter but Im yours to save.  
Youre too cool to care  
People stop & stare  
But you keep walking like its just another day.
