

# Tally It Up, Settle the Score

## Sleeping With Sirens

Tally up those points for me  
We're settling the score  
After everything we've started  
You're gonna keep begging me for more  
(Watch this)(Start this again!)Tally up those points for me  
We're settling the score  
After everything we've started  
You're gonna keep begging me for more  
You don't need to tell me all about  
The person I have been  
Keep believing that we've given up  
We're not giving in  
I promise, this is personal  
Whoa oh  
Look at what you've started here  
Whoa oh  
No I just can't take it anymore  
Look at what you've started now  
Whoa oh  
Right now, I hope this makes you nervousTell me what were you thinking  
When you kept calling us out  
Or you thought we would sit quietly  
And let you keep running your mouth  
You don't need to tell me all about  
I want original, we are  
Keep believing that we're over with  
We'll prove ya  
(Prove you wrong!)  
Whoa oh  
Look at what you've started here  
Whoa oh  
No I just can't take it anymore  
Look at what you've started now  
Whoa oh  
Right now, I hope this makes you nervousI hope you know  
You are what made us this time  
I hope you know  
We'll never fall out of line  
I hope you know  
We'll be the greatest this time  
I hope that you remember!  
Remember, remember!

Remember I hope you remember the last time we tried from the start!  
You took things I needed, you took me apart!  
Take me back!  
Start this again! Oh no  
Look at what you've started here  
Whoa oh  
No I just can't take it anymore  
Look at what you've started here  
Whoa oh  
No I just can't take it anymore  
Look at what you've started now  
Whoa oh  
Right now, I hope that you know  
Everything you started here  
Whoa oh  
Right now, I hope this makes you nervous
