

# The One (feat. Karl Wolf) [Radio Edit]

DJ Antoine & diMaro

Like a light  
I will guide the way  
And lead you out of the dark  
It's alright  
Don't you be afraid  
You'll find me there where you are  
When the sky falls down  
And you feel like giving up  
When the world's so cold  
That your heart keeps freezing shut  
Don't you know I can be the one  
I can be the one  
Anytime you need somebody  
I will come  
I can be the one (6x Be the one)  
I can be the one  
I can be the one  
I can be the one  
I can be the one Like a light  
I will guide the way  
And lead you out of the dark  
It's alright  
Don't you be afraid  
You'll find me there where you are  
When the sky falls down  
And you feel like giving up  
When the world's so cold  
That your heart keeps freezing shut  
Don't you know  
I can be the one  
I can be the one  
Anytime you need somebody  
I will come  
I can be the one (6x Be the one) I can be the one  
I can be the one  
Anytime you need somebody  
I will come I can be the one  
I can be the one  
When it all comes crashing down  
I can be the one  
I can be the one  
I can be the one

I can be the one
