Honey Or Fire

Andra Day

You drew this line But can't pick a side Is it on, is it over Are you in, are you out Make up your mind So I can keep mine Is it on, is it over Are you in, are you outYou're in the wind just like a palm tree in a storm But I'll be the only one to break and fall When you call ohSo give me honey Give me fire Give me honey Or give me fire You love me you say And then run away Are we coming or going is it on, is it off Or call everyday Then say you need space Are we coming or going Is it on is offYou're in the wind just like, a palm tree in a storm But I'll be the only one to break and fall When you call oh, ohGive me honey, give me fire Love me wholly, or let me fly Hot or cold, no just right So give me honey or give me fire Cause you ain't no good when you're, you're just luke warm And I'm closing this bar So make your last call We can have everything, or nothing at all Give me honey, give me fire Give me honey, or give me fireGive me honey, give me fire Love me wholly, or let me fly Hot or cold, no just right Love me wholly, or let me fly Cuz you ain't no good, no you ain't no good oh no So give me honey or give me fire Oh cuz you ain't no good when you're, you're just luke warm Song Discussions is protected by U.S. Patent 9401941.
