

# Next Go Round

## Nickelback

I wanna do it 'til the sun comes up  
Till we're both so good and sweaty we can't stand up  
I wanna do it till we're both about to drop  
As long as we're caught in together, we're never gonna stop I wanna go until the neighbors all  
complain  
'Cause they heard somebody screaming and they think we're both in pain  
I wanna go so long your parents think you died  
They're gonna call the cops, the CIA and then the FBI Yeah, we're gonna love it when the lights  
go down  
Hold on here we go  
Yeah, we're gonna go until our legs give out  
Round and round we go  
Yeah, we're gonna do it hanging upside down  
Up and down we go  
Yeah, we're getting ready for the next go round  
Round and round we go  
Shut the windows, lock the doors, unplug the phone  
For all intents and purposes, there ain't no body home  
Then we can do it 'til the batteries are gone  
And borrow two from the TV remote to throw this thing back on I wanna cover you with jello in  
the tub  
We can roll around for hours without ever coming up  
I want you naked with your favorite heels on  
Slap John Deere across my ass and ride me up and down the lawn Yeah, we're gonna love it  
when the lights go down  
Hold on here we go  
Yeah, we're gonna go until our legs give out  
Round and round we go  
Yeah, we're gonna do it hanging upside down  
Up and down we go  
Yeah, we're getting ready for the next go round  
Round and round we go  
Yeah, we're gonna love it when the lights go down  
Hold on here we go  
Yeah, we're gonna go until our legs give out  
Round and round we go  
Yeah, we're gonna do it hanging upside down  
Up and down we go  
Yeah, we're getting ready for the next go round  
Round and round we go
